WNTC Plans 'Live' Programs Asks For Record Donations

Next week, campus station WNTC will present two programs of unusual interest to its listening audience. On Tuesday night, at 9:45, "Campus Profiles," regular station feature, will have as its guest, President Davis of Clarkson College. Dick Feldman, regular station announcer, will conduct this informal interview. The program will last for fifteen minutes.

On Thursday evening, at 10:30, "Manhattan Towers", a musical narrative composed by Gordon Jenkins, will pervade the airwaves. Featuring Jenkins and his Orchestra, with Elliot Lewis as narrator, and Beverly Mahr as soloist, this transcription gives an accurate description of the whys and wherefores of a New Yorker's love for his own city. The narrative is divided into four parts, which expresses the themes of the work. These are: Magical City; The Party; New York, My Home; and Love in a Tower. Both these programs will undoubtedly prove entertaining and are well-worth listening to. They are musts on any listener's list," Joseph Dral, program chairman, advised.

Aided by the co-operation of both the faculty and students of Clarkson and PSTC, the WNTC record drive, now entering its third week, is beginning to show favorable results. In the words of Gene Mueller, Program Committee Chairman, "A large number of records has been pledged to the station, and I wish to take this opportunity to thank those who have seen fit to, 'Pledge a Record.' However, there still remains a lack of both popular and classical records, and it is necessary for the successful operation of the station that this need be filled." A record librarian will be on hand every night at the station between the hours of 7 and 11 to answer the phone and receive all record pledges. The number is 2770.

Among those who have already donated records are Loren Edwards, Don Boyd, Phil Wesler, Dick Boberg, John Zimmerman, Ed Stern, and Murray Mintz. In conjunction with the initial part of the drive, the following organizations have pledged or already donated the following sums: Lambda, \$8.50; Clio, \$10.00; Holcroft, \$5.00; Karma, \$15.00; Neutral, CCT, \$3.87; Sigma Delta, \$5.46; Woodstock, \$3.00; Ago, \$10.00; Neutral, PSTC, \$2.00; Board of Governors, \$25.00; Phalanx, \$5.00.

"Remember, this is your station, and it is asking for your aid. So dig into those piles of records, call 2770, and 'Pledge a Record,'" Mueller added.

QUESTION: What programs would you like to hear over WNTC?

ELVA FARINA —'49—I'd like to hear local talent—singers (popular, semi-classic or classic), different ones each week. Dramatizations would also be worthwhile.

Sue Selman—'51—WNTC is doing all right for a beginning but I would like to hear a lot more student talent in the programs. Perhaps a college news service could be arranged. How about some original music? Why couldn't some kind of a short serial similar to the D. K. Review be tried? The music and acting in that show was wonderful and if it can be done on the stage, why couldn't it be adapted for radio? Recorded music is all right but with all the talent in Potsdam I don't see why so much of this music is necessary on WNTC.

Shirley Butler—50—The radio programs I enjoy most are musical comedy shows. Not necessarily popular music only, but rather, a variety of good popular music, good classical music and good comedy.

Jean Dilmore—50—Since we have so much talent in PSTC and CCT in our orchestras, bands and dramatic clubs, I think we should use some one-act plays and present concerts given by our own students.

Alyce Barker—48—As a member of WNTC's radio audience, I feel very pleased with the development of the station to date, however, I would like to see a little more emphasis placed on "live" broadcasts or special events. I realize full well that such presentations require much time and hard work on the part of the participants and am quite satisfied with the current presentation of the programs. I feel, however, that this slight increase of the "live" programs by presenting educational features, dramas, quiz programs, and news would prove more beneficial to the station and more enjoyable to the listening audience.
